

Are you an experienced Plant Supervisor in specialty building products looking for a step change? Join a highly respected manufacturing business.

Plant Supervisor

- Yatala QLD Location – Pure work life balance
- Deliver best-in-class of stunning glass finishes.
- Design and supply a wide range of building products.

Our client

They started as one of the very first businesses to manufacture and supply painted and printed glass products. Eventually, they became the leading supplier for all glass manufactured products in Southeast Queensland, which quickly grew to provide most of the Building, Architecture & Design industry.

What they offer

Believing that reward should always match effort, they are offering the right person with passion and enthusiasm the following:

- Competitive base salary
- Superannuation
- Strong career progression

Your responsibility

Based on Yatala QLD reporting directly to the Operations Manager, this role's primary purpose to coordinate team activities and see to project completion. Improve efficiency and productivity in the plant. Key responsibilities will be:

- Oversee the plant and employees to ensure that safety, health, environmental, and quality policies are followed.
- Monitor production output, product quality and on-time delivery.
- Ensure completion of all reporting and record keeping requirements.
- Coordinate team activities and see to project completion.

What you will bring

This full-time position will suit someone who:

- Proven work experience as a Plant Supervisor or similar role as a specialist in building and/or products environment.
- Solid understanding of products and practices within the glass or glazing related building products; including a sound knowledge of the BCA, Australian standards for glass & glazing and the construction industry generally.
- Experience managing a high-volume processing plant including toughening, coating, and distribution.
- Tech-savvy, and strong Quality, Compliance and WHS experience and knowledge.
